

# Project 3: HouseForStudents

—  
Group 5: Ava, Tuan, Ben, Dwij, Jake

# SCRUM METHODOLOGY

---

# Objective

---

- Build a fully functional website which includes:
  - Register page (milestone 1)
  - Login page (milestone 2)
    - Links to particular dashboard based on user type
  - Home page which links to the above pages
  - A seller dashboard (milestone 3) where:
    - User can manage their listed properties

# Homepage Design

---

# Homepage

## House For Students

Our project is strives to be a website allowing users to be able to sign up and locate housing opportunities and options. Contains options like signing up and creating account to storing certain information also.

### About Us

What our company does is that we provide a service where customers can

# Additional Homepage Slide

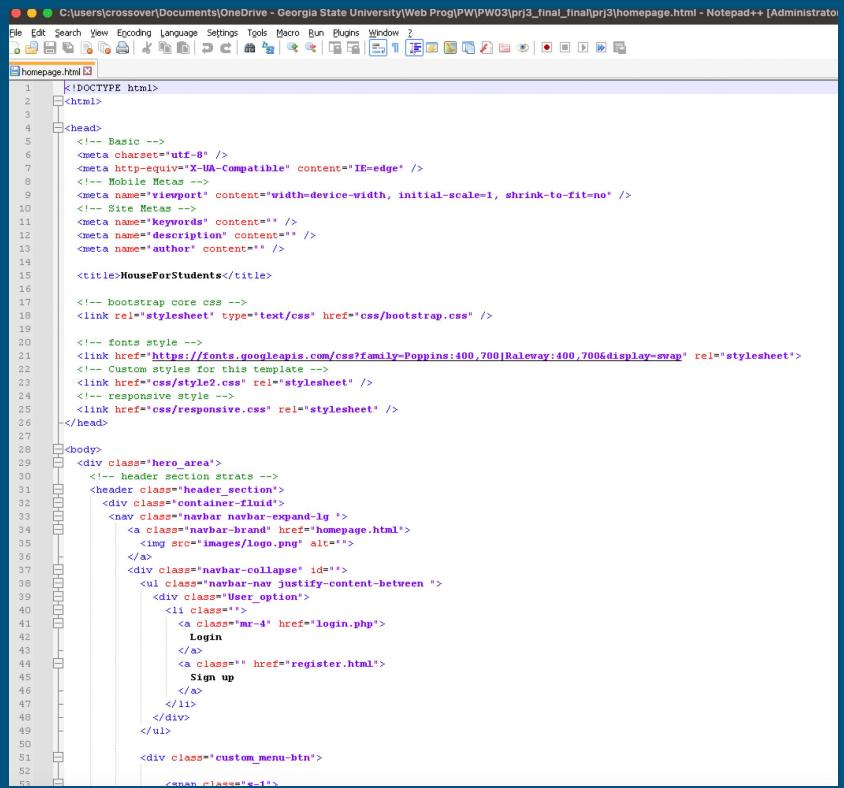

## | About Us

What our company does is that we provide a service where customers can utilize our website and shop and preview many housing options between houses and apartments from the ease of their phone or laptop. Our company strives to provide the best housing options at the best prices also.

## | House For Sale

Here are some of our Housing options available.

# Additional Homepage Slide

The screenshot shows the Notepad++ application window displaying the content of a file named "homepage.html". The file path is C:\users\crossover\Documents\OneDrive - Georgia State University\Web Prog\PW\PW03\prj3\_final\prj3\homepage.html. The code is a standard HTML document with a DOCTYPE declaration, head and body sections, and a navigation menu.

```

```

# DATABASE DESIGN

---

# Database

- Two Tables

The diagram illustrates a database schema with two tables: **member** and **propertyDetails**. A curved arrow points from the **user\_id** column in the **member** table to the **user\_id** column in the **propertyDetails** table, indicating a many-to-one relationship where multiple members can be associated with a single property.

<b>member</b>		<b>propertyDetails</b>	
<b>id</b>	integer	<b>id</b>	integer
<b>user_id</b>	varchar	img	varchar
<b>pw</b>	password	price	integer
<b>firstname</b>	varchar	description	integer
<b>lastname</b>	varchar	location	varchar
<b>email</b>	varchar	age	integer
<b>memtype_id</b>	integer	numberOfBedrooms	integer
<b>created_at</b>	timestamp	numberOfBathrooms	integer
		garden	boolean
		parking	boolean
		propertyTax	integer
		<b>user_id</b>	varchar

# Database Code

---

```
// SQL to create table for members
$sql = "CREATE TABLE IF NOT EXISTS members (
    id int AUTO_INCREMENT PRIMARY KEY,
    memtype varchar(50),
    user_id varchar(50) UNIQUE,
    pw varchar(255),
    firstname varchar(50),
    lastname varchar(50),
    email varchar(100),
    created_at timestamp DEFAULT CURRENT_TIMESTAMP
)";

if ($mysqli->query($sql) === TRUE) {
    echo "Table 'members' created successfully\n";
} else {
    echo "Error creating table 'members': " . $mysqli->error . "\n";
}
```

# Additional Database Slide

---

```
// SQL to create table for propertyDetails
$sql = "CREATE TABLE IF NOT EXISTS propertyDetails (
    id int AUTO_INCREMENT PRIMARY KEY,
    img varchar(500),
    price int,
    description varchar(1000),
    location varchar(50),
    age int,
    numberofBedrooms int,
    numberofBathrooms int,
    garden BOOLEAN,
    parking BOOLEAN,
    propertyTax int,
    user_id varchar(50),
    FOREIGN KEY (user_id) REFERENCES members(user_id)
)";

If ($mysqli->query($sql) === TRUE) {
    echo "Table 'propertyDetails' created successfully\n";
} else {
    echo "Error creating table 'propertyDetails': " . $mysqli->error . "\n";
}
```

Edit Details

Buyer Page Delete This Property

```
//delete
if (isset($_GET['mode']) && $_GET['mode'] == "delete")
{
    $sql = "DELETE FROM propertyDetails WHERE user_id='$userid' and id=$id";
    echo $sql;

    if ($mysqli->query($sql) === true)
    {
        echo "New record created successfully";
    }
    else
    {
        echo "Error: " . $sql . "<br>" . $mysqli->error;
    }

    echo '<script type="text/javascript">
        window.location = "seller.php"
    </script>';
}
```

- Delete process : check get value [ 'mode'] and [id] from previous page.
- Then, running “delete” query.

# PROJECT DIALOG COLLABORATION

---

# July 24

# July 25

Ava\_miyeon 07/25/2023 9:10 PM  
hello  
I found free bootstrap style  
<https://bootstrapmade.com/demo/NiceAdmin/>  
when u are free, please check this one to use our project  
if you are ok, I will start to login & register page first

Tuan 07/25/2023 9:58 PM  
I think it looks good

beN 07/25/2023 10:06 PM  
Yeee let us know what needs to be done

# July 26

 **Ava\_miyeon** 07/26/2023 9:28 PM  
hey could u please design member table?  
for register page and login page

 **beN** 07/26/2023 9:28 PM  
What have you got so far?

 **Ava\_miyeon** 07/26/2023 9:29 PM  
I just have login & register design.  
I need to make a php code to connect db  
when u just design the member table, I will connect to member table in login page

 **beN** 07/26/2023 9:39 PM  
okk could you connect the login and register page to the database using php and store the submitted text into \$variables and then I will connect to the db and add the values  
or did you just want me to set up the tables using php code and then you add onto that php?  
which part do you want to handle

 **Ava\_miyeon** 07/26/2023 9:41 PM  
i think first, could u set up the tables? cause I just wanna check the fixed column name and table name.  
and then I will send the files including register.html and then you can add the php source to register html  
is it okay?

 **beN** 07/26/2023 9:42 PM  
okay, when do you want this by?

 **Ava\_miyeon** 07/26/2023 9:43 PM  
asap?  
and then we also need to talk about other pages

 **beN** 07/26/2023 9:43 PM

# July 26

Ava\_miyeon 07/26/2023 10:38 PM

Milestone -2 User Login:

Once the new user is registered successfully the user must be **redirected** automatically to the login page.

we also need to make a homepage like "About"

**Home Page:**

Design a generic home page describing: (same concept as an **About** page)

- Description of your project.
- What does your company do?
- What kind of services do you provide?
- Why do they have to choose you over your competitors?
- Anything that you do as a business unit to attract customers.

beN 07/26/2023 10:43 PM

Who wants to do the front end part of designing the homepage? **@everyone**

So the homepage should have the login/register link on then them\*

milestone two doesn't even seem like a big thing

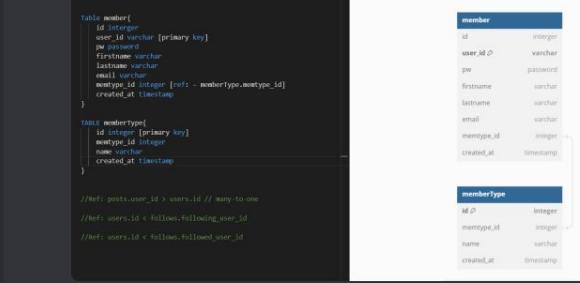

what's three?

also do we have a login page / register page with forms and stuff? that was what the bootstrap stuff was?

Ava\_miyeon 07/26/2023 10:47 PM

we have login page & register page

and then when we choose the 3 or 4 or 5, the bootstrap will cover the design

I add the member type to distinguish admin or buyer or seller  
is it better?  
when u are free, plz response

beN 07/26/2023 10:51 PM

looks solid

so what do you need me to do? I can work on it tonight

Ava\_miyeon 07/26/2023 10:52 PM

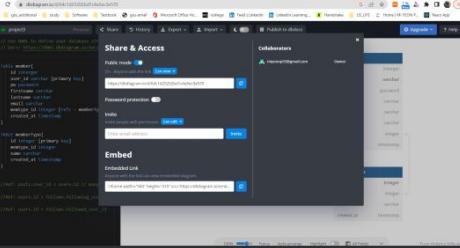

uhm .. let me think

# July 26

beN 07/26/2023 10:52 PM  
okk

Ava\_miyeon 07/26/2023 10:58 PM  
  
I send the basic source file for our project.  
I need to update login & register part  
@beN which number of milestone do you want to make it?  
or you can build basic part such as how to create tables for milestone 3 or 4 or 5?  
or you can give some ideas to make pages or whatever

Ava\_miyeon 07/26/2023 11:06 PM  
Also, i wanna share a page for building tables. I think it is useful us.  
so could u please your emails to invite this page?

11:07 PM   
<https://dbdiagram.io/d/64c1d25202bd1c4a5ec3e570>

**A Free Database Designer for Developers and Analysts**  
Quick and simple free tool to help you draw your database relationship diagrams and flow quickly using just keyboard  

Tuan 07/26/2023 11:14 PM  
Hey guys sorry for not jumping earlier but which milestones are we working on I'll try to help out with whatever I can

Ava\_miyeon 07/26/2023 11:14 PM  
hey could u please make a homepage?

Tuan 07/26/2023 11:15 PM  
Yeah  
Just a homepage?

Ava\_miyeon 07/26/2023 11:15 PM  
for now, we need to make a homepage  
and then we also talk about milestone 3-5 deeply

Tuan 07/26/2023 11:15 PM  
Ok  Also I'll have work the next three days so I might be a little slow to respond but I'll be on it

Ava\_miyeon 07/26/2023 11:16 PM  
that's good

**Home Page:**  
Design a generic home page describing: (same concept as an **About** page)  

- Description of your project.
- What does your company do?
- What kind of services do you provide?
- Why do they have to choose you over your competitors?
- Anything that you do as a business unit to attract customers.

 1  
this one is a description of home page

Tuan 07/26/2023 11:16 PM  
Oh ok thanks

Ava\_miyeon 07/26/2023 11:16 PM  
do you have any ideas to ..uhmm

Tuan 07/26/2023 11:16 PM  
Do we know what kinda company or website it is yet?

# July 26

# July 27

Tuan 07/27/2023 12:02 AM  
what do you think about this template? if we still wanna go with like a realtor website

 EstateAgency.zip 5.16 MB

@Ava\_miyeon so could u please your emails to invite this page?  
beN 07/27/2023 12:07 AM  
beansnip@icloud.com

@Ava\_miyeon @beN when u are starting, could u please share a sql for making member table?  
beN 07/27/2023 12:08 AM  
im not sure what you mean by this

beN pinned a message to this channel. See all pinned messages. 07/27/2023 12:08 AM

Tuan 07/27/2023 12:10 AM  
Tuantran2316@gmail.com

beN 07/27/2023 12:14 PM  
We will have a meeting tonight?

Tuan 07/27/2023 12:19 PM  
We should 😊

Ava\_miyeon 07/27/2023 12:53 PM  
Yes  
I'm sorry i wanna invite you guys. but I need to pay that program.

beN 07/27/2023 12:57 PM  
it's okay

JakeOh 07/27/2023 1:06 PM  
Yes I'm free today

beN 07/27/2023 1:26 PM  
Is all the credit card stuff mentioned in the project optional?  
milestone two seems simple enough as well

beN 07/27/2023 1:26 PM  
Is all the credit card stuff mentioned in the project optional?  
milestone two seems simple enough as well

**FE + BE:**

- Design and develop your login page.
- If the user exits after verification of the password fetched from the DB you should redirect the user to his dashboard to officially sign in.

**Redirecting Rules:**

- If the user is a seller, redirect the user to the seller dashboard.
- If the user is a buyer, redirect the buyer to the buyer dashboard.
- If the user is an admin, redirect the admin to the admin dashboard.

**Make use of the session's concepts for example in the general situation :**

1. The session id is sent to the user when his session is created.
2. It will store a cookie (called, by default, PHPSESSID...etc...)
3. The cookie is sent by the browser to the server with each request
4. The server (PHP) uses that cookie, containing the session\_id, to know which file corresponds to that user.

@beN Is all the credit card stuff mentioned in the project optional?  
Tuan 07/27/2023 1:29 PM  
I think so

**Task to completed you must complete**  
**Milestone #1: Home page and User Registration**

**Home Page:**  
Design a practical landing page (something like our About page)  
• What is your company about?  
• Who are your target users?  
• Why do they have to choose you over your competitors?  
• Anything that you do as a business and its attract customers.

**User Registration:**

1. Now as a user, you have discussed what kind of user your platform will be having.
2. Users Buyers and Sellers. You also want to add an Admin user to analyze your business.
3. This Portal must handle the registrations and login of all the users.

**Front End UI:**

- Design a signup page with all the required form fields. For example first name, last name, email, password, etc. Make sure you collect all the form data that is required from the users to run your business effectively.
- Handle all the form validations.

codd.cs.gsu.edu

Ava\_miyeon 07/27/2023 1:29 PM

# July 27

Ava\_miyeon 07/27/2023 1:29 PM  
Yes

Tuan 07/27/2023 1:29 PM  
As long as we do 1 and 2 the third milestone is optional

Ava\_miyeon 07/27/2023 1:29 PM  
If I can do that, I will try that one

beN 07/27/2023 1:29 PM  
no we have to do three

Ava\_miyeon 07/27/2023 1:30 PM  
Yes we need to choose one from 3-5

Tuan 07/27/2023 1:30 PM  
Yeah  
I meant the third one is optional between 3-5

Ava\_miyeon 07/27/2023 1:30 PM  
Okay

Tuan 07/27/2023 1:30 PM  
It's three milestones in total tho  
I get off at 7 but what time did you guys wanna meet up and discuss the project

Ava\_miyeon 07/27/2023 1:32 PM  
I also prefer after 7

beN 07/27/2023 1:33 PM  
Sounds good  
I am leaning towards choosing option 3

beN @Ava\_miyeon 07/27/2023 1:33 PM  
I send the basic source file for our project.  
have you made any changes to the code in here?

Ava\_miyeon 07/27/2023 1:34 PM  
not yet, I will update the login&register part  
and then upload them  
today

beN 07/27/2023 1:41 PM  
okay I can create the database tables for the users right now

Ava\_miyeon 07/27/2023 1:42 PM  
yes. I have a question, when we submit this project, we also have to upload our codd server, right?

beN 07/27/2023 1:42 PM  
i think so? you mean a link to the homepage? or like we need to upload all our files into the codd server?

Tuan 07/27/2023 1:42 PM  
Yeah  
I think so (edited)

Ava\_miyeon 07/27/2023 1:43 PM  
we need to upload all our files into the codd server?  
so we also have to set up tables our local codd server  
right?

Tuan 07/27/2023 1:44 PM  
Yeah just incase if they need to check it  
I think tho I'm not sure

Ava\_miyeon 07/27/2023 1:44 PM  
I see. Thanks

beN 07/27/2023 1:46 PM  
i think its okay to have our tables setup in just one of our codd databases, as in I am making the member and memberType data tables in mpark52

```
1 // $sql = "SELECT * FROM members WHERE id = 1";
2 // $conn = new mysqli($servername, $username, $password, $dbname);
3 // if ($conn->connect_error) {
4 //     die("Connection failed: " . $conn->connect_error);
5 // }
6 // echo "Connection established\n";
```

# July 27

Ava\_miyeon 07/27/2023 2:35 PM  
i also create tables by using your code

beN 07/27/2023 2:35 PM  
i just updated something  
i am going to resend

Ava\_miyeon 07/27/2023 2:36 PM  
yab

beN 07/27/2023 3:18 PM  
okay okay  
i believe i got the two tables to communicate correctly and work fine  
so before you run the code  
make sure you delete the tables if you created them already  
using  
DROP TABLE members, memberType;

Ava\_miyeon 07/27/2023 3:19 PM  
okay

beN 07/27/2023 3:20 PM  
I am not sure how to redirect the user to the login page after they press create the account button  
So now we need to redirect the user and then figure out to connect the login page with the database information to login properly? and then redirect the user after they login to the correct page based on their memberType

Ava\_miyeon 07/27/2023 3:21 PM  
yes

beN 07/27/2023 3:22 PM  
do you know how to redirect the page?

Ava\_miyeon 07/27/2023 3:22 PM  
uhmm let's figure out

```
beN 07/27/2023 3:53 PM
MariaDB [Innodb] > select * from members;
+----+-----+-----+-----+-----+
| id | memtype | user_id | pw      | firstname | lastname | email           | created_at |
+----+-----+-----+-----+-----+
1	seller	User1	adfad	Water	Melon	Water@Melon.net	2023-07-27 15:50:19
2	buyer	User2	edfed	Srasberry	Smoothie	Smoothie@dee.com	2023-07-27 15:51:29
3	admin	User3	adfadfs	Pine	Apple	Apple@pine.com	2023-07-27 15:51:31
+----+-----+-----+-----+-----+
3 rows in set (0.01 sec)
```

is this cool?

Ava\_miyeon 07/27/2023 3:53 PM  
good

beN 07/27/2023 3:53 PM  
gotta encrypt the pw

Ava\_miyeon 07/27/2023 3:54 PM  
nice nice. are u gonna change the source code?

beN 07/27/2023 3:54 PM  
source code?

Ava\_miyeon 07/27/2023 3:54 PM  
yes the file you sent

beN 07/27/2023 3:54 PM  
yeah let me encrpyt password then I will send

Ava\_miyeon 07/27/2023 3:54 PM  
okay

beN 07/27/2023 3:56 PM  
alrightyyy

# July 27

 beN 07/27/2023 4:02 PM  
you figure out how to redirect to another page ?

 Ava\_miyeon 07/27/2023 4:02 PM  
maybe?  
i will update that part today's meeting  
when today's meeting

 Tuan 07/27/2023 4:03 PM  
Hey guys I'm still at work but I'll try to finish up on the homepage today after I get home

 Ava\_miyeon 07/27/2023 4:03 PM  
good

 Tuan 07/27/2023 4:03 PM  
Hows it going for you guys

 Ava\_miyeon 07/27/2023 4:03 PM  
noooo  
tired

 Tuan 07/27/2023 4:03 PM  

 Ava\_miyeon 07/27/2023 4:04 PM  
that's okay. we can do  
we can finish this project

 Tuan 07/27/2023 4:04 PM  
Yeahhh it's the last thing

 beN 07/27/2023 4:04 PM  
easy

 Tuan 07/27/2023 4:04 PM  
We'll be free after this

 beN 07/27/2023 4:04 PM  
we are so close to finishing

 beN 07/27/2023 4:04 PM  
can't give up yet

 Tuan 07/27/2023 4:05 PM  
Hang in there guys 😊

 Ava\_miyeon 07/27/2023 4:05 PM  
sure. i must pass this class

 beN 07/27/2023 4:05 PM  
we can meet around 7  
we will stay updated on when we will be able to get on

 Tuan 07/27/2023 4:05 PM  
Oh ok  I'll let you guys know when I'm good after I get home  
I have Henry again next semester for mobile app dev 💀  
So I won't be free

 Ava\_miyeon 07/27/2023 4:06 PM  
oh  
oh! good luck

 Tuan 07/27/2023 4:06 PM  
Thanks

 beN 07/27/2023 4:06 PM  
he's a good prof tho

 Tuan 07/27/2023 4:06 PM  
Yeah  
This class would've been way better if it was a fall or spring class

 beN 07/27/2023 4:08 PM  
True we were just so rushed this semester

 Ava\_miyeon 07/27/2023 4:08 PM  
when i success to register user info, which page do i need to show up?  
login?

# July 27

beN 07/27/2023 4:10 PM  
today we should basically almost be done with milestone one and two

Ava\_miyeon 07/27/2023 4:10 PM  
yes

beN 07/27/2023 4:10 PM  
tomorrow we got the third milestone (edited)

Ava\_miyeon 07/27/2023 4:10 PM  
good good

Tuan 07/27/2023 4:18 PM  
Hey guys did you guys get a grade for cw05?  
He graded 6 for me but not 5 yet

Ava\_miyeon 07/27/2023 4:19 PM  
Same here. so I sent an email to prof and ta  
but they do not respond it until now

Tuan 07/27/2023 4:19 PM  
Oh ok maybe I should do the same 😊

Ava\_miyeon 07/27/2023 4:19 PM

beN 07/27/2023 4:20 PM  
I don't have a grade for that one either

Tuan 07/27/2023 4:20 PM  
Oh ok he must've just not gotten to it yet then

Ava\_miyeon 07/27/2023 4:28 PM

prj3\_ava.zip  
1.51 MB

i added the login function  
and when success login, it will connect to example\_admin.html. it is just an example

and when success login, it will connect to example\_admin.html. it is just an example

beN 07/27/2023 4:35 PM

JakeOh 07/27/2023 4:37 PM  
See you guys at 7ish then

beN 07/27/2023 4:37 PM

Tuan 07/27/2023 4:42 PM

beN 07/27/2023 6:26 PM  
I can be on at 7:00  
what about y'all

Tuan 07/27/2023 6:27 PM  
Probably 7:45  
I gotta drive home first

Ava\_miyeon 07/27/2023 6:28 PM  
I'm okay any time  
around 8?

Tuan 07/27/2023 6:28 PM  
8 works for me

Ava\_miyeon 07/27/2023 6:28 PM  
yes

# July 27

Ava\_miyeon 07/27/2023 6:40 PM  
nothing.

beN 07/27/2023 6:40 PM  
oop

JakeOh 07/27/2023 6:40 PM  
Okay 8 is good

Ava\_miyeon 07/27/2023 6:40 PM  
!!

beN 07/27/2023 6:41 PM  
GIF

Tuan 07/27/2023 7:59 PM  
I'm good now

Ava\_miyeon 07/27/2023 8:00 PM  
me too

beN 07/27/2023 8:01 PM  
Where guys at

JakeOh 07/27/2023 8:01 PM  
im ready

Ava\_miyeon 07/27/2023 8:11 PM

NiceAdmin

Components

Default Card

Card with header and footer

Card with image on top

Card with image on bottom

Card with title, buttons, and links

# July 27

beN 07/27/2023 8:30 PM

```
<?php  
  
require 'db_connection.php';  
  
// SQL to create table for propertyDetails  
$sql = "CREATE TABLE IF NOT EXISTS propertyDetails (
```

Once the seller adds a property to the platform, store all the details in the property table in the DB with the foreign key user owning the property.

Ava\_miyeon 07/27/2023 8:38 PM

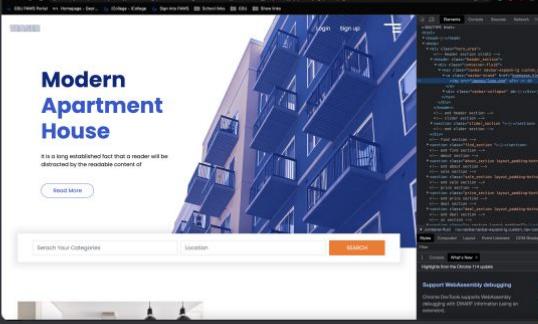

beN 07/27/2023 8:44 PM

finalZip 1.43 MB

JakeOh 07/27/2023 8:48 PM

I'll try to edit the card template that Ava sent

Tuan 07/27/2023 8:48 PM

JakeOh 07/27/2023 8:50 PM

thanks guys

Ava\_miyeon 07/27/2023 8:51 PM

jake  
i will send the file one more time

JakeOh 07/27/2023 8:51 PM

okay

Ava\_miyeon 07/27/2023 8:51 PM

and then you can use it

JakeOh 07/27/2023 8:52 PM

ok thank you

JT-1-- 07

JakeOh 07/27/2023 8:52 PM

ok thank you

The screenshot shows a Figma workspace with a sidebar containing various components like Alerts, Buttons, Cards, General, and more. A specific card component is selected, displaying its visual structure and code snippets for different variations.

I am trying to use this template

Ava\_miyeon 07/27/2023 8:52 PM

okay

JakeOh 07/27/2023 8:53 PM

Imma add images and when the database and the seller page is done, I'll try to connect those with the buttons

@Dwij Guys I can't attend Vc right now but please let me know if there's something I need to do in the text channel

beN 07/27/2023 8:53 PM

Saturday after 5pm is cool for you to start recording and editing again? We plan to finish all the coding up by Friday night/ Saturday morning, and then edit the powerpoint and that single doc with our names up until 5pmish and we record separately like last time

JakeOh 07/27/2023 8:54 PM

Hey Ava, are you going to send it today or later

Ava\_miyeon 07/27/2023 8:54 PM

i might be today

# July 27

JakeOh 07/27/2023 9:04 PM

Okay I'll check it out thank you so much

Ava\_miyeon 07/27/2023 9:12 PM

Good

JakeOh 07/27/2023 10:01 PM

The screenshot shows a user interface for a real estate application named 'HouseForStudents'. It features a grid of house cards, each displaying a thumbnail image of a two-story house, price (\$1,500 - \$2,000), and number of bedrooms (2 Beds - 1 Bathrooms). Each card includes a brief description of features like 'No pets and dogs are allowed', 'Fitness Center', 'Pool', 'Dishwasher', 'Refrigerator', 'Kitchen', 'Walk-In Closets', and buttons for 'Show Details', 'Seller Page', and 'Help(?)'.

What do you guys think  
any ideas to add buttons or informations?

JakeOh 07/27/2023 10:03 PM

I'll add address too

is the 'user' seller or the buyer?

or both?

Ava\_miyeon 07/27/2023 10:04 PM

seller

beN 07/27/2023 10:04 PM

remember that we have to have another page; the second bullet point under card:

JakeOh 07/27/2023 10:04 PM

okay

beN 07/27/2023 10:04 PM

we are doing milestone three so we focus on seller

JakeOh 07/27/2023 10:04 PM

got you

beN 07/27/2023 10:06 PM

and for the other member types, after logging in, we can redirect them to a static admin/buyer page based on the member type since we have to redirect the user to the dashboard based on their member type after login

@Dwij could you make those two pages? one for an admin page and one for buyer page

honestly we could just use the sample\_admin(not sure if that's the correct file name) html that was included in Ava initial zip file for the non working admin page. so @Dwij could you create a basic buyer dashboard page that says something like Buyer dashboard is currently under maintenance and then a link to redirect back to the homepage(when @Tuan) finishes that up

bueno?

beN Saturday after 5pm is cool for you to start recording and editing again? We plan to finish all the coding up by Friday night/ Saturday morning, and then edit the powerpoint and that single doc with our

Dwij 07/27/2023 10:13 PM

Sounds good

beN @Dwij could you make those two pages? one for an admin page and one for buyer page

Dwij 07/27/2023 10:17 PM

I can give it a shot tonight probably

beN honestly we could just use the sample\_admin(not sure if that's the correct file name) html that was included in Ava initial zip file for the non working admin page. so @Dwij could you create a basic b

Dwij 07/27/2023 10:18 PM

Both admin and buyer? Or just buyer

Tuan 07/27/2023 10:18 PM

This is what I have so far for homepage

1.05 MB

JakeOh 07/27/2023 10:55 PM

1.53 MB

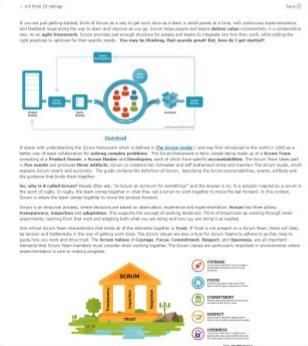

# July 27

July 26, 2020

beN Yesterday at 1:45 AM  
@Dwij Both admin and buyer? Or just buyer  
you could do both to make them consistent. sorry for late reply. but we have a blue gray white black color theme going on rn  
both would be nice

beN Yesterday at 1:10 AM  
@Tuan This is what I have so far for homepage   
homepage looks nice, just need to get those forms submitted to somewhere  
send links to the codd server to make testing/debugging easier for the team  
we looking good so far

beN Yesterday at 1:18 AM  
@Tuan quick exert on scrum then yall know what to talk about in your recordings  

<https://www.scrum.org/resources/what-scrum-module>

Scrum.org  
**What is Scrum?**  
If you are just getting started, think of Scrum as a way to get work done as a team in small pieces at a time. with continuous

# July 28 - 29

Ava\_miyeon Yesterday at 6:31 PM

@JakeOh hey. is it okay that I can work next part from what you've done?

JakeOh Yesterday at 7:26 PM

Yeah sure! That's why I uploaded the zip file 😊 you can edit what I have made as well

Ava\_miyeon Yesterday at 7:26 PM

okay!

Ava\_miyeon Yesterday at 11:59 PM

HEY

codd.cs.gsu.edu

is connecting now?

beN Yesterday at 11:59 PM

hmmm?

July 29, 2023

Ava\_miyeon Today at 12:00 AM

!! my one is suddenly not connected

Tuan Today at 12:00 AM

Having an issue?

# July 28 - 29

Ava\_myeon Today at 12:23 AM

TTT i failed login over three times  
so I'm almost done without showing data on the seller pages.  
I added the "remember me" function on the login page  
and keep using session after login.  
and the page for adding property. and then ,  
which one do i need to check more?

1.53 MB

i need to remove some files in the zip file. but, I am just sharing what I've done

Tuan Today at 12:26 AM

Oh ok

Ava\_myeon Today at 12:27 AM

<https://codd.cs.gsu.edu/~mpark52/WP/PW/03/login.php>

Tuan Today at 12:27 AM

I think that's good for today a lot of people in the discord for the class asked for an extension so maybe if we're lucky he might push it back to Sunday 😊 but probably not

Ava\_myeon Today at 12:27 AM

you guys can check process until adding property

yes.. tuan, I also saw that message

@beN honestly we could just use the sample\_admin(not sure if that's the correct file name) html that was included in Ava initial zip file for the non working admin page. so @Dwij could you create

Dwij Today at 12:30 AM

I'm working on this now, could you explain to me what you mean by "non-working" admin page? Are you referring to milestone 4 and 5?

# July 29

Ava\_myeon Today at 12:32 AM  
@Dwij I'm already done. depends on user types(admin, seller, buyer), it will connect to proper pages.

Dwij Today at 12:32 AM  
Oh, so do I not have to work on that anymore?

Ava\_myeon Today at 12:33 AM  
could u please make a ppt file? if you have a time, could u test my link?

Dwij Today at 12:34 AM  
Cool, I'll work on the ppt now

Ava\_myeon Today at 12:34 AM  
thanks!!

@beN hey, when u have a time, could u please add some columns in the propertydetail tables? i need IMG to save img

Dwij Today at 12:37 AM  
I used the admin login, i think it works @Ava\_myeon

Ava\_myeon Today at 12:37 AM  
thank. when u click the add button,  
that page shows the form to fill properties

Dwij Today at 12:38 AM  
yes that works too

@Ava\_myeon @beN hey, when u have a time, could u please add some columns in the propertydetail tables? i need IMG to save img url, and price, detail to explain the property

beN Today at 12:52 AM  
so you need a IMG VAR and a Price INT added?

Ava\_myeon Today at 12:53 AM  
Yes yes

beN Today at 1:10 AM  
quick edit to the datatable creation

```
<?php  
require 'db_connection.php';  
// SQL to create table for propertyDetails  
$sql = "CREATE TABLE IF NOT EXISTS propertyDetails ("
```

Dwij Today at 7:00 AM  
"HouseForStudents" is the title of our project right  
1

beN Today at 8:29 AM  
send us the ppt deets when you got it

Dwij Today at 8:48 AM  
<https://docs.google.com/presentation/d/1IifvOxnSi1KIR3N2QcqjXMeTO98mIEPQ2w2lkGnGU4/edit?usp=sharing>

# July 29

Tuan Today at 10:14 AM  
I ask to get off early today so I'll be good at 6 today  
 1

How are things looking so far

beN Today at 10:15 AM  
I am not sure, need to get in touch with Ava whenever she's free  
but last I heard was we need to display the property info on each card

Tuan Today at 10:15 AM  
Oh ok

Dwij Today at 10:15 AM  
Why do all of us need to talk about scrum this time? That makes no sense

beN Today at 10:16 AM  
no idea  
we all can just record a 30-60 second clip saying how we benefited from it

Tuan Today at 10:16 AM  
Yeahhh  
Just a brief explanation

Ava\_miyeon Today at 12:18 PM  
 prj3\_ava\_final.zip 1.52 MB  
<https://codd.cs.gsu.edu/~mpark52/WP/PW/03/login.php>  
I added  
1. add property page  
2. edit function  
3. delete function  
4. logout function.  
I wanted to make a file upload function for example, when the user save the property, I only inserted data in the tables, at the same time, file also is uploaded our web server. but now, I didn't do that. If i can , i will update that function. and anyone is free to test, plz test our site

3. delete function  
4. logout function.  
I wanted to make a file upload function for example, when the user save the property, I only inserted data in the tables, at the same time, file also is uploaded our web server. but now, I didn't do that. If i can , i will update that function. and anyone is free to test, plz test our site

beN Today at 12:29 PM  
I will be online in about an hour if you wanna have a quick meeting to see where we are at? can y'all meet at around 1:30-2:00? I know tuan is at work rn just then we can all be on the same page for the rest of the day

Ava\_miyeon Today at 12:29 PM  
I'm okay 2pm.  
ben, do u know the homepage folder?  
do we need to add the link that is login page?

beN Today at 12:31 PM  
yes we do need to add that, last time I checked the homepage there wasn't a link to login

Ava\_miyeon Today at 12:31 PM  
okay the file is sent by tuan  
right?

beN Today at 12:31 PM  
yes yes  
i'm not sure which folder in the zip to transfer to code server. there's one that says MACOSX and another one. i'm assuming transfer both of them?

Ava\_miyeon Today at 12:32 PM  
ho

beN Today at 12:32 PM  
@tuan which folder do we use in your zip file?

Ava\_miyeon Today at 12:32 PM  
i can wait until tuan comes
